

## LEGEND

**Documented Orphan Wells**  
*Wells within close proximity to one another overlay to create denser clusters*

**Rivers and Lakes**

**Highways**

**Urban Areas**

**State Boundaries**

*This is an equal-area projection, showing land areas, like the various states, correctly sized in proportion to each other. However, directional scale and angle of travel vary inconsistently throughout the map.*

*Kansas well location data is approximate, centered on PLSS sections.*

Data: Environmental Defense Fund and McGill University; Cartography by Nick Trotter Maps and Alan Bucknam/Notchcode Creative
